ORGANIC AGAVE SWEETENER

KEY PRODUCT FEATURES:

Agave sweetener is a crystallized form of the agave nectar which has been used for centuries by Mexicans as a natural sweetener. Today, health-conscious individuals will appreciate that the agave nectar is high in nutrients and antioxidants, yet lower on the glycemic index. Plus, it's a healthier option for diabetics in moderation. Agave is 33% sweeter than table sugar! That's why it's perfect for baking those oh-so sweet desserts.

INGREDIENTS:

Organic Blue Agave.

OTHER ATTRIBUTES:

Low glycemic, ideal for cooking & baking, gluten free, Non GMO, suitable for pets, great substitute for honey and corn syrup, great in beverages.

ALLULOSE SWEETENER

KEY PRODUCT FEATURES:

Allulose is an all-natural sweetener derived from non-GMO corn, jackfruit, kiwi, figs, and raisins. It is rich in natural nutrients, antioxidants and low on the glycemic index. Although Allulose is not a sugar alcohol, it contains 0 carbs and 90% fewer calories than regular sugar. Allulose is unique among sweeteners because it caramelizes just like sugar making it perfect for cooking, baking, sauces and glazes.

INGREDIENTS:

Allulose.

OTHER ATTRIBUTES:

Zero glycemic, preferred for diabetics, ideal for cooking and baking, Gluten free, Non GMO, suitable for pets, not a sugar alcohol, browns like sugar, zero carbs, 90% fewer calories than sugar.

ERYTHRITOL SWEETENER

KEY PRODUCT FEATURES:

Erythritol is an all natural sweetener derived from non-GMO corn, it is unequivocally the best in it's category when compared to other sugar alcohols. Erythritol is less likely to cause digestive discomfort. Erythritol is a strong antioxidant and does not raise blood sugar levels or promote tooth decay. Erythritol is suitable for Keto diets, kids with ADHD and diabetics. Erythritol pours like sugar, making it perfect for use in cooking and low-rise baking.

INGREDIENTS:

Erythritol. Erythritol is a naturally occurring sugar alcohol found in some fruits and vegetables.

OTHER ATTRIBUTES:

Kosher, Gluten free and Non GMO, 0 Glycemic index, 0 Net carbs, No digestive discomfort, Safe for Diabetics.

NOTES:

Also available as Organic Erythritol.

MONK FRUIT EXTRACT

KEY PRODUCT FEATURES:

Siraitia grosvenorii, also known as monkfruit or luohan guo, is a herbaceous perennial vine of the gourd family, Cucurbitaceae. It is native to southern China and northern Thailand. The plant is cultivated for its fruit extract, called mogrosides, which creates a sweetness sensation 250 times stronger than sucrose.

INGREDIENTS:

Pure Monk Extract

OTHER ATTRIBUTES:

Kosher, Keto certified, Gluten free, 0 Calories, 0 Glycemic Index, 0 Net Carbs, Naturally rich in Antioxidants, No Aftertaste.

NOTES:

Available in MV25% MV40% MV50%

MONK FRUIT GOLDEN SWEETENER

KEY PRODUCT FEATURES:

Monk fruit sweetener is derived from the juice of a sub-tropical melon that has been cultivated in Asia for centuries due to its health benefits and delicate sweetness. We combined monk fruit extract with Erythritol for the perfect level of sweetness that has zero effect on glycemic levels! Monk fruit pours like sugar, making it perfect for use in cooking and baking.

INGREDIENTS:

Erythritol, Monk Fruit Extract. Erythritol is a naturally occurring sugar alcohol found in some fruits and vegetables.

OTHER ATTRIBUTES:

Kosher, Keto certified, Gluten free, 0 Calories, 0 Glycemic Index, 0 Net Carbs, Naturally rich in Antioxidants, Browns like sugar, No Aftertaste.

NOTES:

Monk fruit golden is derived from "dried" Monk Fruit, giving it its natural brown color and caramelizing effect.

MONK FRUIT CLASSIC SWEETENER

KEY PRODUCT FEATURES:

Monk fruit sweetener is derived from the juice of a sub-tropical melon that has been cultivated in Asia for centuries due to its health benefits and delicate sweetness. We combined monk fruit extract with Erythritol for the perfect level of sweetness that has zero effect on glycemic levels! Monk fruit pours like sugar, making it perfect for use in cooking and baking.

INGREDIENTS:

Erythritol, Monk Fruit Extract. Erythritol is a naturally occurring sugar alcohol found in some fruits and vegetables.

OTHER ATTRIBUTES:

Kosher, Keto certified, Gluten free, 0 Calories, 0 Glycemic Index, 0 Net Carbs, Naturally Rich in antioxidants, No aftertaste.

NOTES:

Monk Fruit Classic is derived from "Fresh" Monk Fruit giving it its natural white color.

ORGANIC COCONUT SUGAR

KEY PRODUCT FEATURES:

Coconut sugar, derived from the sap of coconut trees, has been used for centuries around the world as a natural sweetener. A rich source of potassium, magnesium, zinc, iron and inulin, coconut sugar contains 16 vital amino acids and is suitable for diabetics in moderation. With its deep golden color and caramel flavor, coconut sugar is an ideal substitute for brown sugar!

INGREDIENTS:

Organic Coconut Sugar

OTHER ATTRIBUTES:

Kosher, Non GMO, Gluten free, Low Glycemic Index, No Aftertaste.
Great substitute for brown sugar.

ORGANIC CANE SUGAR

KEY PRODUCT FEATURES:

Organic cane sugar is unrefined sugar minus the cancer-causing and environmentally damaging pesticides present in conventionally-grown sugarcane. Compared to white sugar, organic cane sugar has the full-bodied taste of sugarcane and is much less processed, retaining a lot of the nutrients present in cane juice.

INGREDIENTS:

Organic Cane Sugar

OTHER ATTRIBUTES:

Kosher, Non GMO, Gluten free, No aftertaste. Great substitute for cane sugar.

XYLITOL SWEETENER

WOOD BASE BIRCH

KEY PRODUCT FEATURES:

A champion among sugar alcohol sweeteners, xylitol is a veritable powerhouse of unparalleled health benefits. Derived from non-GMO birch trees, Xylitol is an all-natural, delicious, nutritious, sweetener with no harmful additives or artificial chemicals. Xylitol is a tried-and-tested favorite among consumers, valued for its unequivocal health benefits and pure, sweet taste.

INGREDIENTS:

Hardwood-Birch Xylitol.

OTHER ATTRIBUTES:

Kosher, Gluten free, Non GMO, 40% less calories than sugar, Low Glycemic Index, 0 Net Carbs, Fights plaque, Safe for diabetics.

NOTES:

Birch Xylitol is extracted from Birch trees.

XYLITOL SWEETENER

CORN BASE

KEY PRODUCT FEATURES:

A champion among sugar alcohol sweeteners, xylitol is a veritable powerhouse of unparalleled health benefits. Derived from non-GMO corncob, Xylitol is an all-natural, delicious, nutritious sweetener with no harmful additives or artificial chemicals. Xylitol is a tried-and-tested favorite among consumers, valued for its unequivocal health benefits and pure, sweet taste.

INGREDIENTS:

Corncob Xylitol.

OTHER ATTRIBUTES:

Kosher, Gluten free, Non GMO, 40% less calories than sugar, Low Glycemic Index, 0 Net Carbs, Fights plaque, Safe for diabetics.

NOTES:

Corn Xylitol is extracted from the cob of the corn.

STEVIA BLEND

KEY PRODUCT FEATURES:

Stevia Rebaudiana, has seen a meteoric rise in popularity in the last two decades. Hundreds of foods and beverages around the world use stevia as a zero-calorie alternative to sugar. We combined Stevia and Erythritol for the perfect level of sweetness that has zero effect on glycemic levels! Stevia is a fine powder that dissolves easily, making it perfect for beverages, smoothies and yogurt. The Stevia Blend is a 1:8 sweetness.

INGREDIENTS:

Stevia, Erythritol.

OTHER ATTRIBUTES:

Kosher, Low glycemic, gluten free, Non GMO, great in beverages.

NOTES:

Our Stevia Blend is also offered as Sugarless which is the same as the Stavi Blend but with a 1:1 sweetness

STEVIA EXTRACT

KEY PRODUCT FEATURES:

Stevia is a natural sweetener and sugar substitute derived from the leaves of the plant species *Stevia rebaudiana*. The active compounds are steviol glycosides, which have about 50 to 300 times the sweetness of sugar, are heat-stable, pH-stable, and not fermentable.

INGREDIENTS:

Stevia

OTHER ATTRIBUTES:

Kosher, Low glycemic, gluten free, Non GMO, great in beverages.
